

CAKE – O- MEAL

Cake - O -Meal (Organic Manure)

Dharti Brand Cake-o- Meal is totally organic fertilizer. It is a mixture of different types non-edible oil cakes, Fishmeal, Lather meal, Bone meal, Neem (*Limda ni minj no khol*), other inedible fodder.

Cake - O – Meal mainly contains Nitrogen, Phosphorus, Potassium as well as minerals like Calcium, Magnesium and Organic Carbon in abundance.

C: N ratio for Cake- O- Meal is 20:1, which is beneficial for land texture and structure.

How Dharati brand Cake –o-meal is beneficial for crop and Land?

Cake-o-meal helps in liberating fixed Nitrogen, Phosphorus and Potash from Soil.

Cake-o-meal prevents Nitrogen, Phosphorus and Potash from leaching deep in Soil or evaporating in air so that crop can avail full advantage.

Decomposition of Cake-o-meal in Soil produces energy, which initiates growth of different microorganism. The soil becomes live due to presence of these Microorganisms.

Cake-o-meal is beneficial for 'Integrated nutrient program'. It is possible to get all the benefits of Chemical fertilizers like Urea, DAP, Potash by applying with Cake-o-meal.

Cake-o-meal improves physical properties of soil i.e. Tilth capacity, fertility, productivity and compaction to make it best for land.

Decomposition of Cake-o-meal in Soil produces different types of Formic acid, Acetic acid, Proponic acid, Butyric acid, Ammonia and Hydrogen Sulphid, which kills nematodes (*Crummy*) in soil.

Cake-o-meal releases Amino acids in Soil, which are responsible for flowers growth.

(Cake-O-Meal as a basal dose alone or in conjunction with chemical fertilizers helps to raise better crops used consistently over a period of years and maintains the fertility of the soil.)

How to Apply?

At least before 72 hours of application of Seeds; per acre 100 kg of Cake-O-Meal 'Double Force' should be applied and mixed with soil. Moisture should be present in the soil.

IDEAL FOR: Integrated Nutrient Management

APPLICATION: Basal Application and Topdressing

DOSAGE: As per soil fertility and productivity

MODE OF ACTION: Systemic

CREDENTIAL: Gold Medal Approved Quality
