

WISHESHA

(Sticker , Spreader and Adjuvant)

Wishesha is a multi-purpose spray adjuvant that increase the performance and effectiveness of herbicides, insecticides and other agricultural chemicals. It improves and promotes wetting, sticking and absorption. When tank mixing agricultural chemicals, Wishesha promotes compatibility and reduces drift. It may be applied with ground sprayer, aerial sprayers or central drip irrigation system. Wishesha is non toxic and environmentally safe. Farmers find Wishesha to be effective when used in initial stage infestation of soft body insects.

Composition: Blend of Oil, wetting agents and emulsifiers

Application :

Use as multipurpose agricultural plant spray soap at the rate of 250 to 500 ml / 400 liters of spray mix. Spray until plants are slightly damp. Wishesha can be used on any type of crop including vegetables, grains, fruit , nuts and turf.

Dose

15-20 ml per 15 litres of water with recommended dose of insecticide and herbicide during rainy condition.
